rhyming text celebrates the many parts of a house from the floor and its welcome mat to the walls windows stairs and roof

the book of life is a new rendering of one of the most influential transformational books in human history originally collected by the students of epictetus the most famous teacher of conscious living in turbulent first century rome this book presents a brilliantly simple formula for resolving the most complex problems of psychological and spiritual growth

the bold goal of epictetus teachings is to give the seeker a reliable way to experience happiness amidst all the ups and downs of human existence the essence of the book is contained in its first sentence and is echoed throughout misery comes from trying to control things that you are powerless to control and happiness comes from correctly placing your attention on things you can control although there have been many versions of this master work throughout the centuries the current rendition aims for something new an experiential whole person understanding so that the reader can feel as well as contemplate its wisdom includes a meditative cd

many homes across america have designs based on plans taken from pattern books or mail order catalogs in houses from books daniel d reiff traces the history of published plans and offers the first comprehensive survey of their influence on the structure and the style of american houses from 1738 to 1950 houses from books shows that architectural publications from palladio s i quattro libri to aladdin s readi cut homes played a decisive role in every aspect of american domestic building reiff discusses the people and the firms who produced the books as well as the ways in which builders and architects adapted the designs in communities throughout the country his book also offers a wide ranging analysis of the economic and social conditions shaping american building practices as architectural publication developed and grew more sophisticated it played an increasingly prominent part in the design and the construction of domestic buildings in villages and small towns which often did not have professional architects the publications became basic resources for carpenters and builders at all levels of expertise through the use of published designs they were able to choose among a variety of plans styles and individual motifs and engage in a fruitful dialogue with past and present architects houses from books reconstructs this dialogue by examining the links between the published designs and the houses themselves reiff s book will be indispensable to architectural historians architects preservationists and regional

historians realtors and homeowners will also find it of great interest a catalog at the end of the book can function as a guide for those attempting to locate a model and a date for a particular design houses from books contains a wealth of photographs many by the author that enhance its importance as a history and guide

this book presents a comprehensive guide to building houses and details such as doorways fireplaces and windows with over 300 illustrations of houses and their accompanying plans the house gardens book of houses provides inspiration for those designing their own home this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
